SUMMARY

Transitioning from a successful career in engineering and customer service to frontend development, with a solid foundation in HTML, CSS, JavaScript, and Python. A proactive learner with a technical mindset, keen to leverage my problem-solving skills to create intuitive user experiences. Excited about joining a forward-thinking company where I can contribute to meaningful projects and further develop my frontend skills.

EXPERIENCE

Technican, Self-employed
TV Expert   **January 2015 - December 2022, Dublin**
· Facilitated CCTV installations, servicing, and installation of television systems, and troubleshooting WiFi/LAN issues.
